**Subject:** FW: Draft Shiloh PCB Field Sampling Plan  
DRAFT Shiloh Church Road Removal PCB FSP.PDF

FYI, PCB sampling FSP. Please note this was NOT approved by the OSC because it did not follow the requirements of TSCA, so we never implemented this plan. However, there may be some useful info here.

Still looking for the residential FSP  
Thanks  
Chris

**Subject:** Draft Shiloh PCB Field Sampling Plan

Good evening Chris,

Attached is the draft Shiloh Field Sampling Plan for the Site PCB transformers. This sampling plan is to address the transformer removal with post confirmation sampling. After the transformers are removed and the extent distribution across the Site is more thoroughly assessed, we will update an addendum FSP to sample and assess the PCB soil contamination with more distributed sampling..

Please let me know if you have any questions.

I hope you enjoy your weekend. My team is looking forward to continuing next week!

Sincerely,

[redacted]
